

AFRO-CUBAN BASS GROOVES

by Manny Patiño and Jorge Moreno

A collage of various musical instruments including a cymbal, maracas, a conga, a bongo, a timbale, a guiro, and a double bass. The instruments are arranged in a dynamic, overlapping fashion against a dark background with green and blue highlights.

ACKNOWLEDGEMENTS & DEDICATION

Special Thanks and Dedication From Manny

My deepest thanks and appreciation to:

God for giving me this opportunity and for allowing me to work and learn from great musicians, my wife Alexiys, and my boys Manny and Ricky for being patient with me through the many hours I sat in my studio and for supporting me always; I love you all, Ricardo Patiño for piano grooves, programming and for your endless support as always; I love you brother, Jorge Moreno, my other brother, for without his idea this wouldn't have been possible.

My appreciation and gratitude to all those musicians throughout the years that either created these grooves or in one way or another influenced their evolution. God Bless you all.

I would like to dedicate this work to the memory of my parents Francisco and Adela Patiño who gave me life and gave me their love and support always. I love you mami y papi.

Special Thanks and Dedication From Jorge

I would like to thank:

My parents Magaly and Israel Moreno for always supporting me in all my endeavors, my wife Maritza and my kids Alex, Amanda and Andrea for giving me their unconditional love and support; to my musical brother Manny Patiño, for always being there for me, without him this book would have never happened; to Rick Patiño for his encouragement and support to this project; to Gustavo Sala for his friendship throughout the years and for the immense talent he put into this project.

To all the musicians I have worked with and learned from throughout the years; to almighty God for creating this beautiful universe and allowing me to evolve and grow with it.

This book is dedicated to my children Alex, Amanda and Andrea. They inspire me daily to be a better human being.

Special Thanks From Manny & Jorge to:

Aaron Stang for believing in this project since the very beginning, Jose Arias for taking us to see "El Bol", Raul Artiles for numerous consultations and support, Alfonso Afonso for percussion and photo touch-ups, Felix Gomez for piano grooves and for being patient as always, Jackson Fondeur for Merengue piano tumbaos and Merengue history, Jorge "Araña" Hernandez for Cuba's videos, Sandy Poltarack for suggestions and books, Guillermo "El Bol" Vivar for the legend and history, Israel "Cachao" Lopez for the legend and for giving us the foundation and the Mambo, Giovanni Gonzalez for "a lo maco" tambora and conga, Cesar Betances for double-checking our Merengue grooves, Alfredo Alvarez for piano tumbaos, Rick Ramirez for photo touch-ups, Osbaldo Cesa for Merengue history and updates, Francisco "Paquito" Hechavarria for the contagious piano tumbaos, Pablo Grajales for those 'venomous' Colombian

tumbaos, Jesus "Gumby" Navedo for the Bomba & Plena percussion, Gilberto Garcia for the Cha-cha grooves, Abel Pabon for the Bomba, Plena, & Latin Jazz tumbaos, Raul Gallimore for laying the piano grooves for the slap & tap bass, Mario Marrero for history notes, Johnny Conga "JC" for history notes, Geraldo Peña for Merengue history notes, Ignacio Berroa for the history of the Songo, and especially Gustavo "Cubiche" Sala for laying down the cowbells, bongos, and timbal.

About the Authors

Manny Patiño was born in Barranquilla, Colombia South America. His family moved to New York where he was exposed to a variety of musical styles including, of course, American Pop and Jazz, as well as various types of ethnic Latin music. He began playing a home-made "marimbula" bass ("box bass" used in early Afro-Cuban and Dominican music) at the age of eight. He later picked-up drums, electric and upright bass as well as clarinet and saxophone. He studied music at Miami-Dade Community College, University of Miami, and Florida International University.

Manny has recorded and performed throughout the world accompanying artists in various genres, including: Celia Cruz, Andy Montañez, Pete "El Conde" Rodriguez, Ismael Miranda, Franky Ruiz, Cheo Feliciano, Willy Chirino, Hansel y Raul, and Roberto Torres in the Salsa circuit; Nestor Torres, Dave Valentin, Mongo Santamaria, Patato Valdez, Ira Sullivan, Othello Molineaux, and Roberto Perera in Jazz and Latin Jazz; and Selena, Barrio Boys, Gloria Estefan, Jose Luis Rodriguez, Raphael, Braulio, Camilo Sesto, Raul Di Blasio, Manoela Torres, Emmanuel, and Ricardo Cocciante in Latin Pop.

Manny currently works throughout South Florida and teaches Jazz Bass at Miami-Dade Community College. Most recently, he worked on the published transcriptions for "Cachao's Masterpiece Vol. I".

Jorge Moreno arrived in the United States from Cuba in 1962. He began playing classical guitar at a very young age, a family tradition started by his great-grandfather in Matanzas, Cuba. In high school he started playing upright bass and electric bass guitar. At the age of sixteen he started playing local gigs and a year after that he recorded his first album. He studied music at Miami-Dade Community College and the University of Miami and has studied arranging and composition under Dr. Carlos Varela.

In addition to working with local artists and bands in Miami, North, South America and Europe, he has recorded numerous albums and performed with such Latin music artists as Celia Cruz, Johnny Pacheco, Pete "El Conde" Rodriguez, Charlie Palmieri, Carlos "Patato" Valdez, Jorge Dalto, Roberto Torres, Vicentico Valdez, Hector Lavoe, Spider Martin, Charytin, La Lupe, and Andy Harlow.

Recently Jorge worked on the published transcription of "Cachao's Masterpiece Volume I" and for the past ten years has been directing his own band "Casablanca".

FOREWORD: LATIN AMERICAN MUSIC

Latin American Music has experienced enormous influences from various parts of the world. It has a rich diversity in styles that seem similar yet are conceptually different in their interpretation. Without elaborating too greatly on the effect of cultures, religions, and customs on the evolution of this music, we will briefly touch upon those that have had the most obvious influence in its formation.

The earliest and most dominant of these influences came from the European Conquistadors to the New World. From Europe we inherited the instruments and harmonic functions of classical music along with its cultural dances and song forms such as the Contra-Danza Francesa (country dance song), the Paso Doble (polka-like song), and the Rumba Flamenca which is of Gypsy origin.

From Africa we inherited various complex rhythms derived from tribal religious rituals mainly of Nigerian and Congolese descent. We also acquired a number of percussive instruments, i.e., yembe drum (conga-like drum), palitos (sticks), guiros (scrapers), tambores bata' (bata' drums), chekere (shaker), senceros (cowbells), and agogo bells among other hand-held percussion instruments. Along with these, African tribes also brought us an immense repertoire of polyrhythms so rich in sound and pitch that harmony and melody almost became secondary. Included in these varied and diverse polyrhythms came the *Clave**. And of course, like the field-haulers of North America the slaves brought improvised singing.

The Aborigines of Latin America were influenced positively and negatively by both these cultures. In South America notes were added to their existing pentatonic scales, and polyrhythms and percussion were incorporated in the music. Adversely, some indigenous musical instruments, mantras, chants and rituals were abolished by the imposed doctrines and philosophies of the Roman Catholic Church. In the Caribbean, unlike South America, the Spanish Conquistadors exterminated all the inhabitants. This genocide made the music of Cuba and other Antilles Islands strictly an Afro-European hybrid.

The United States also influenced the development of Latin music. Its influence has been more prominent in this century with the advent of phonograph recordings, radio and television. The Big Band Era had a tremendous impact on Latin bands like Beny More's Orchestra of Cuba. And Jazz harmonies, R & B and Rock & Roll beats have always had an influence on Latin Music.

In summary, Latin American Music implies many things. It is music born of a Euro-Afro-American union enormously rich in rhythms and colors. The spectrum of musical frequencies range from a poly-rhythmic percussion ensemble, or comparsa, to an eloquent melodic Tango or harmonically rich Samba. It is music that was created by the intertwining of cultures and religions that continues to evolve in itself.

*Pronounced klah-vay: An underlying ostinato rhythmic pattern (used in Afro-Cuban) music whereby all of the syncopations and accents of the overlaying music must be strictly arranged in relation to this ostinato pattern (please see "The Clave").

INTRODUCTION

This book will provide you with a solid understanding of the function of both the bass and piano within popular Latin music. It is a collection of 'tumbaos' (grooves) that you can assimilate without sitting through recordings where the tumbaos are sometimes obscured by the other instruments. It does not, in any way, replace the educational value of listening and analyzing sound recordings or videos and actually seeing live groups perform this music. This book should be used as a tool for learning the fundamentals of the grooves. It should serve as a stepping stone for the musician to create his or her own tumbaos within the characteristics of each style.

This book is for those pianists and bassists who have always been intrigued by the complex polyrhythms and syncopated patterns of Latin music. It is also for those who might want to increase their vocabulary of Latin grooves and for those musicians who have had difficulty in finding "one" or just simply "feeling" the "time" in some Latin grooves.

The scope of Latin American music stretches from popular, well known styles to less known regional folk music. There are many more rhythms that compose a good portion of the total spectrum. From Buenos Aires to the Caribbean there is a prism of music that is impossible to fit within this writing. For this study we will be focusing mainly on Latin Afro-Cuban dance music.

From the greater Antilles Islands of the Caribbean evolved most of the popular Latin dance music we hear today. From the island country of Cuba we have inherited the vast majority of pop-dance rhythms like Rumba, Cha-cha, Mambo, Songo, Guaracha, Bolero and many more. From Puerto Rico evolved la Plena and la Bomba. In addition, Puerto Rican immigrants in New York elaborated on the Cuban Guaracha and produced a hybrid form called "Salsa". And from the Dominican Republic the most notable contribution to Latin music is of course, the Merengue.

LOS TUMBAOS

(The Comping)

The most important thing in any pop-dance music is "time". Likewise in Afro-Cuban music. The most crucial element, other than the Clave* which we will discuss soon, is being very conscious of the time/pulse and knowing at all times where the beat is. Peripheral listening, constant adaptation and accommodating to the sounds of the other instruments is very crucial for "locking in" with a real groove. What I mean is an adjustment of the volume, attack and sustain or decay of each note being played in relation to what is "happening" around you. Of course, this interaction is limited when one plays with a drum machine or sequencer (which, by the way, is very good practice for acquiring time).

In playing Afro-Cuban music it is essential that the rhythm section be close together. The section should run like a finely tuned machine. Precision is the key in a music that has so much overlapping of rhythms. One note from any one of its members, that is out of time, will de-tune the "mechanism". Of course, we're not talking about one note in a whole tune, but rather one of the repetitive notes of a pattern that is constantly off. This can also mean an inconsistent time feel or a dragging and/or rushing of one or more notes.

When playing these styles you will realize some similarities between them. Tempos, rhythmic patterns and chord progressions will give each a different flavor. To the musician/listener who is first exposed to Afro-Cuban music it may all sound the same. Long term exposure and careful listening will enable him/her to distinguish the differences.

Some measures in certain tumbaos** can be interchanged *depending on the clave*. *The grooves can be embellished and/or edited with discretion by the player as long as he keeps in mind the underlying accents of the respective clave*. As mentioned earlier, the "trick" is to keep your "ears" open at all times. Listen to what is going on around you and how it is relating to what you are doing. If you're critical about your playing and about music in general you will feel the groove when it "locks".

*Clave (klah-vay): An underlying ostinato rhythmic pattern (used in Afro-Cuban) music whereby all of the syncopations and accents of the overlaying music must be strictly arranged in relation to this ostinato pattern (please see "The Clave").

**tumbao (toom-ba-o): Groove, or comping a groove; vamping on a groove; usually a repetitive two bar rhythmic vamp played by the piano, bass, or tres guitar that must be played in relation to the clave (see page "History Synopsis of Tumbaos").

THE CLAVE

'La Clave' (klah-vay) is the most crucial element in Latin Afro-Caribbean Music. The clave is an underlying ostinato rhythmic pattern on which the music is rhythmically based. This pattern is played on two wooden sticks about one inch in diameter by eight inches in length called by the same name, "claves". It is also played on a woodblock. It is believed the clave was born out of the 6/8 rhythms of the African tribes and that originally there were many claves that were used by Nigerian and Congolese slaves.

Afro-Cuban Music, Salsa, Merengue and Bossa Novas all have a clave. Much like Jazz and Rock in which two and four are the strong beats, clave is the underlying accent in these musics. They must be composed and performed with the clave in mind. Afro-Cuban composers naturally write with an internalized knowledge of the clave. A musician, singer, or writer well versed in this idiom automatically hears and feels if a melodic phrase or rhythmic pattern is "cruzado" crossed or inverted with the clave pattern.

The clave used today is either "rumba/guaguanco clave" or "son clave". This rhythmic pattern encompasses a total of four beats (two measures in 2/2 time, Illus. 1). Clave 3:2 means three accents followed by two. They can be inverted with the "two-side" of the clave at the beginning of the phrase (two accents followed by three). Percussion patterns, piano and bass tumbaos, melodies and any improvised riffs or solos must adhere to these accents.

Illustration 1

Son Clave 3:2

Rumba/Guaguanco Clave 3:2

Son Clave 2:3 (Inverted)

Rumba/Guaguanco Clave 2:3 (Inverted)

As you study this concept of clave you will soon realize that there are certain rhythms and melodies that are more “in clave” than others; meaning that the “feel” of the clave is more easily recognizable. You will also realize that a number of patterns and melodic fragments can “be” in either 3:2 or 2:3 clave. There are also phrases that do not really outline or identify the clave of a particular section of a piece, although the remaining rhythmic instruments will be outlining it in their respective tumbaos.

Tunes that start on a given clave whether 3:2 or 2:3 must stay on that clave. There are cases where the melodic phrasing of a section is in 2:3 and a subsequent section is in 3:2. In this case there must be at least two beats (one measure in 2/2 time) added to the music or an odd number of measures in 2/2 time added before entering the subsequent section of the tune (Illus. 2). In other words, the clave pattern must remain constant throughout.

Illustration 2

Clave 2:3 (C Section) - Clave 3:2 (D Section)

The illustration shows two musical sections, C and D, in a 2/2 time signature. Section C is marked with a 'C' in a box and contains four measures of music. The first measure is a whole rest. The second measure has a melodic line in the treble clef and a bass line with two 'x' marks. The third measure has a melodic line and a bass line with two 'x' marks. The fourth measure has a melodic line and a bass line with two 'x' marks. Section D is marked with a 'D' in a box and contains four measures of music. The first measure has a melodic line and a bass line with two 'x' marks. The second measure has a melodic line and a bass line with two 'x' marks. The third measure has a melodic line and a bass line with two 'x' marks. The fourth measure has a melodic line and a bass line with two 'x' marks.

Section C: Clave 2:3

- Measure 1: Cm (Chord), 2 (Clave pattern)
- Measure 2: Fm7 (Chord), 3 (Clave pattern)
- Measure 3: G7 (Chord), 2 (Clave pattern)
- Measure 4: Cm (Chord), 3 (Clave pattern)

Section D: Clave 3:2

- Measure 1: G7 (Chord), 2 (Clave pattern)
- Measure 2: A♭maj7 (Chord), B♭7 (Chord), 3 (Clave pattern)
- Measure 3: Cm (Chord), 2 (Clave pattern)
- Measure 4: C7 (Chord), 2 (Clave pattern)

Section E: Clave 3:2

- Measure 1: Fm7 (Chord), 3 (Clave pattern)
- Measure 2: B♭7 (Chord), 2 (Clave pattern)
- Measure 3: E♭maj7 (Chord), 3 (Clave pattern)
- Measure 4: A♭maj7 (Chord), 2 (Clave pattern)

A good exercise in determining a clave is to clap the clave pattern both ways (3:2 or 2:3) and listen to which one feels better with what you’re listening to. Try to find the beat in the tumbao that emphasizes the first accent of the “2 side” of the clave or the second accent (bombo accent) on the “3 side”. In some cases the “2 side” is a less busy melodic side.

Like any other music, in order to really understand the nuances that give each music its characteristics, one must do a lot of listening and playing. The dynamics and accents are very crucial to obtaining a groove in any music. It is the tumbaos’ individual note accents and dynamics that give it the personalized groove. The same notes played by another player will sound slightly different. Through time and practice the grooves will become more natural and you’ll instinctively feel the accents of the clave within each groove.

Cinquillo

Cinquillo (pronounced "SIN-KEY-YO") is a one bar rhythmic pattern that is found throughout Afro-Cuban percussive and melodic phrases.

Cinquillo came into existence with Danzon* music in Cuba. This music was created by Miguel Failde-Perez in the province of Matanzas in Cuba. In 1877 he wrote "Las Alturas de Simpson" (The Heights of Simpson) named for the town of Simpson in the hills overlooking Matanzas.

The Cinquillo pattern is part of a two-bar vamp that is played on the timbales throughout a Danzon. This in turn has filtered down to become an integral part of many other rhythmic patterns.

It is very important for you to remember this pattern when trying to determine the Clave of any tune. This pattern falls on the "3" side of the Clave.

"El Manicero" (The Peanut Vendor)

Notice that the Cinquillos fall on the 2nd and 4th bars of the melody.

Of course the Cinquillos are not always as obvious as this one is. You will hear many examples of Cinquillos throughout this book.

*Danzon: Is the national dance music of Cuba since the late 1800's.

INTROS & ENDINGS

Intros and endings in Afro-Cuban music are for the most part dependent on the clave; although sometimes rules are broken at the very end of a tune. As a rule of thumb, endings are played on the last accented note or notes of a phrase or on a down beat. Many times one part or both sections of the clave are played as the ending of a tune (Example A). Endings usually occur either on the last accent (quarter note) or the last two eighth notes of the "3" part of the clave (Example B). Although it is not very commonly used, some endings occur on only the first quarter note of either measure of the clave. A more commonly used first beat ending is two accented eighth notes (Example C). Some endings outline part of the clave (Example D), while adding notes in between the accents (Example E). There are also endings that partially outline the clave (Example F).

Example A

Example B

Example C

Example D

Example E

Example F

Intros for rhythm section players are treated much the same way as endings. For instance, in a Son Montuno where the pianist might begin a tumbao by himself for four or eight measures, the rest of the rhythm section will enter on the last quarter note of the "3" section of the clave (Example G). Intros can vary depending on a possible percussion break or a melodic pick-up prior to beginning the groove (Example H). Some intros are simply down beats, but more often than not, the intro usually accents a part of the clave (Example I).

HISTORY OF PIANO & BASS TUMBAOS

The word “tumbao” is slang for “tumbar” which means to knock down, to tumble, or to lie down. Tumbao is synonymous with “guajeo” probably derived from the slang ‘aguaje’. Aguaje means to fake something, hence guajeo (“comp” or fake harmonic changes). Another synonymous word is “montuneando” derived from “montuno”—the vamp section where an improvised call and response takes place. Thus, the words tumbao (tumbando: doing a tumbao), guajeo, and montuno (montuneando—doing a montuno) are the Latin versions of groove, comping a groove, or playing an accompanying pattern or riff. For simplicity’s sake, we will use only the word “tumbaos” when referring to the piano or bass grooves.

A tumbao is a rhythmic clave-based groove or pattern that is played throughout a tune. It is a rhythmic pattern that should be maintained with little or no variation. The tumbao/groove can be enhanced and/or modified at the beginning of a new section within a tune. Drastic and abrupt rhythmic changes should not be made within a section although, occasionally, a fill can be played within the groove. Unlike piano comping in Jazz, the piano tumbao in Afro-Cuban Music should have a consistent unbroken groove once it has been established.

The first harmonic accompaniment tumbaos were performed on the lute (ancestor to the guitar) in the 1700’s. The lute was replaced by the tres in Cuba (a guitar with three sets of two strings placed close together as to be played simultaneously) and the cuatro in Puerto Rico (smaller than the tres with five sets of two strings). In the Merengue of the Dominican Republic the harmonic as well as the melodic function was performed by an accordion in the “Perico Ripiao” (ancestor to the modern merengue band; a small ensemble made up of guira [metal scraper], tambora [drum with two heads played horizontally on the percussionist’s lap], and accordion).

The music we are discussing here is, of course, folk music. Therefore, the piano was not available. The piano was only used for classical music and to perform Contradances in Haiti and subsequently in Cuba the Contra-Danzas, Danza Habaneras and Danzones in the high society. The rhythms of the lower classes were gradually accepted into the high society dances. In the early 1900’s piano tumbaos were added to the Danzones in Cuba. And, orchestrated Merengues were played between Danzones in cultural dances in the Dominican Republic. At this time cultured music and folk music began to mix.

Piano tumbaos eventually replaced the tres tumbaos in Cuba and the accordion accompaniment in the Dominican Republic. In the modern Merengue the accordion is no longer an integral member and it is almost never used other than in a historic setting. In salsa, the tres is rarely used except in some typical “sonoras” as a comping instrument along with the piano.

Through time the piano tumbaos evolved. They have expanded from typical two octave triadic patterns to a more elaborated voicing pattern. The jazz influence on some of today’s tumbaos is obvious. Of course, the tumbaos still maintain a clave-based pattern which is the backbone of the music. The fundamental characteristics of the ostinato patterns still remain. Although, in some “Salsa Sensual” or “Salsa Romantica” as it is termed, the piano will occasionally play a non-tumbao (freely/ad-lib) accompaniment during the “head” of the tune giving it a ballad-like romantic feel.

The acoustic bass, being of European origins, was not incorporated into Afro-Cuban music until a much later date. The first known instrument to be used to provide a bass sound for this music was called a “Botija”. It is a large wine bottle

made of glass or ceramic which has a wide opening where the cork is placed. They used to blow air through this opening to produce a bass sound. By adjusting the angle of their lips they would get different intonations.

Another bass sounding instrument that was used and can still be seen in use by some peasants is a "Marimbula". This is a square wooden box with an opening on one side where thin metal shanks are placed directly over the opening and these are then plucked by the player. The length and thickness of the shanks determines the notes they produce.

The first Afro-Cuban music to use an established bass instrument was the "Danzon". It used the tuba for all bass parts in an ensemble consisting of violins, trombone, cornet, clarinet, tuba and timpani.

The acoustic bass first emerged around the 1800's, when Danzon had become an acceptable form of dance music for the high society and established orchestras began to play it.

In the 1950's the AMPEG musical instrument company based in New York started to produce the first upright electrical bass called "The Baby Bass". The development of this instrument coincided with the "Mambo" dance craze that began in New York and eventually swept the country, making New York the mecca of Latin music for the next three decades.

The "Baby Bass" was almost instantly adopted by a large number of the Latin bass players living in the New York area at the time. The vast number of albums recorded and hits produced during this era using this particular bass sound, made this "THE SOUND" of the industry.

In the 1970's some very well known bass players such as Bobby Valentin and Salvador Cuevas started using the bass guitar. They played and recorded with one of the more famous musical organizations in recent Latin music history "The Fania All Stars". This made the bass guitar accessible to large audiences and acceptable to record producers. It has brought the bass guitar sound to the same level of importance as the "Baby Bass" and has opened a wide range of playing styles and techniques that were not traditionally used in Latin music before.

SON MONTUNO

SON MONTUNO or "SON" is a very popular form of Cuban dance music that originated primarily in the mountainous province of Oriente.

The word SON derives from the Spanish word "Sonetas" which are poems set to music and MONTUNO from the word "Montaña" which means mountain. Son Montuno or "Songs from the Mountains" were played by the peasant farmers of these regions since the 1800's.

Due to the development of railroads and other forms of public transportation in Cuba during the 1920's this music was exposed to the bigger markets in the major cities. The most important band that popularized "SON" was a "Trio Matamoros" led by Miguel Matamoros.

Son Montuno was originally played in an ensemble consisting of a guitar, a tres and clave.

The usual clave pattern of the Son Montuno is 2:3, but depending on the melody it can also be a 3:2 pattern.

Son Montuno was first adapted by dance bands in the 1920's played with an ensemble of guitar, tres, clave and adding bongos, bass and a trumpet. Later with its growing popularity piano, congas and brass were added.

If you wish to listen to more examples of Son Montuno we recommend recordings by Trio Matamoro, Ignacio Pineiro y El Septeto Nacional and La Sonora Matancera.

Bass Example 6

First system of the bass line for "Son Montuno". The staff shows a melodic line in bass clef with notes and rests, and a corresponding bass line with fingerings (3, 5, 5, 3, 5, 7, 5, 3, 3, 5, 5, 3, 5, 7, 5, 3, 3). Chords C, F, G7, F, C, F, G7, F are indicated above the staff.

Second system of the bass line. The staff shows a melodic line in bass clef with notes and rests, and a corresponding bass line with fingerings (3, 5, 5, 3, 5, 7, 5, 3, 3, 5, 5, 3, 5, 7, 5, 3, 3). Chords C, F, G7, F, C, F, G7, F are indicated above the staff. The final measure is marked "Play 4 times".

Third system of the bass line. The staff shows a melodic line in bass clef with notes and rests, and a corresponding bass line with fingerings (3, 5, 5, 3, 5, 7, 5, 3, 3, 5, 5, 3, 5). Chords C, F, G7, F, C, F are indicated above the staff.

Fourth system of the bass line. The staff shows a melodic line in bass clef with notes and rests, and a corresponding bass line with fingerings (5, 7, 5, 3, 3, 5, 5, 3, 5, 7, 5, 3, 3). Chords G7, F, C, F, G7, F are indicated above the staff.

Fifth system of the bass line, showing two endings. The first ending (1.) leads back to the beginning of the first system, and the second ending (2.) leads to the end of the piece. The staff shows a melodic line in bass clef with notes and rests, and a corresponding bass line with fingerings (3, 5, 5, 3, 5, 7, 5, 3, 3, 5, 5, 3, 5, 7, 5, 3, 3, 3). Chords C, F, G7, F, C, F, G7, F, C are indicated above the staff.

GUAGUANCO

Guaguanco is a style of music that originated in the Cuban province of Matanzas. During colonial times this part of Cuba was the principal agricultural region, thus it was home to the largest slave population on the island. This created a special mixture of African rhythms and Spanish folk music (flamenco).

Guaguanco was originally played with an array of conga drums and claves creating a rhythm pattern for call and response type melodies. Also a small conga drum approximately six to eight inches wide called a quinto is used for fill-in solos throughout.

This ensemble was later adapted by dance bands in the thirties and forties with richer melodies and arrangements and was exposed to larger audiences throughout Cuba.

The examples that are presented here are in the dance band style.

Notice that guaguancos are played with the conga drum and the bass emphasizing a counterpoint against the guaguanco clave.

If you wish to listen to other examples of Guaguanco we recommend recordings by Los Papines, Los Munequitos de Matanzas and Patatos y Totico.

Jorge Moreno with Casablanca Band playing the Ampeg "Baby Bass"

MAMBO

When the word Mambo is mentioned the first name that comes to mind is the famous Perez Prado and his orchestra. But Mambo has a very rich heritage in Cuba.

The first Mambo written was done by two brothers, Orestes and Israel "Cachao" Lopez, in the early 1930's. At the time they were playing piano and bass in Jose Arcano's band "Arcanos y sus Estrellas" in Havana. This band strictly played DANZON music which was the most popular form of Cuban dance music at the time.

The Lopez brothers created a vamp that was used as a bridge or a movement within a Danzon and called it Mambo. Other Danzon bands of the era picked up on this and started to incorporate this new part in their Danzon arrangements.

Later in the 1940's Perez Prado, who was a piano player with Danzon bands in Cuba, used this style to compose and arrange his music.

In 1949 Perez Prado's recording of Mambo #5 became a hit in New York. This started one of the biggest dance crazes to hit the United States and the whole world.

After this, Mambo music was greatly enhanced and developed by such artists as Machito, Tito Puente, Tito Rodriguez, Desi Arnaz (of the Lucy and Desi show) to name a few.

The examples contained here are played in 2:3 clave, although depending on the melody of the song, it may also be played in 3:2 clave.

If you wish to listen to other examples of Mambo we recommend recordings from Perez Prado y su Orquesta, Machito y sus Afro-Cubans, Tito Puente and Tito Rodriguez.

CHA-CHA-CHA

As the creator of this music Enrique Jorrin himself says: "I named this music Cha-cha-cha because that was the sound I heard coming from the feet of the dancers dancing on those smooth Spanish tiles in Havana's dance halls."

Though it is in 4/4 time it must be played with a bouncy 2/4 feel.

Since Mr. Jorin himself was a pianist, more so than in other styles that are in this book, the piano vamps in Cha-cha-cha dictate the feel to the rest of the instruments. It is important to keep this in mind when practicing the examples.

Although Enrique Jorin was the creator of this music, the great Cuban Charanga band “La Orquesta Aragon” has been its most innovative contributor.

With such Cha-cha-cha world-wide hits as “Calculadora”, “El Bodeguero”, “Los Tamalitos de Olga” and “La Enganadora” just to name a few they are unquestionably the Kings of the Cha-cha-cha.

If you wish to listen to other examples of Cha-cha-cha we recommend recordings of La Orquesta Aragon, Jose Fajardo y sus Estrellas and Enrique Jorrin.

BOMBA & PLENA

Bomba & Plena — Folk music from Puerto Rico. These grooves are folk styles that emphasize rhythm more than harmony. Although, they may include a “cuatro” (a small guitar native of Puerto Rico similar to the Cuban “tres”) as a harmonic accompaniment to the singing. The following musical examples illustrate how these styles would be incorporated in a salsa arrangement.

Bomba: The Bomba is traditionally played on three wide barrel drums similar to the conga drums, guiro (scraper), and cencerro (cowbell). Each barrel drum has its own rhythmic pattern. The “requinto” (high pitched drum) improvises over the ostinato pattern the other two drums maintain. The ostinato patterns are one measure in length and do not outline the clave. The piano “comps” a groove in either a 3:2 or 2:3 clave and the bass plays a basic syncopated pattern that may or may not define the clave. Bombas are usually played by salsa ensembles as interludes or as specific sections in a tune.

Plena: The Plena originated in Ponce, Puerto Rico. It is traditionally played on tunable panderetas (tambourine-like drums without the rattles), guiro, and accordion. The piano outlines either clave (2:3 or 3:2) while the bass plays a basic Merengue-like pattern with roots and fifths on the downbeats.

MERENGUE

Merengue (merenge) — A sweet delicate candy made with whipped egg-whites and sugar. Popular dance rhythm native of the Dominican Republic.

The merengue evolved from the “perico ripiao”; early folk music that is still played today. “Perico ripiao” was originally played on a guira (cylindrical metal scraper), tambora (two-headed drum played horizontally on the player’s lap), and a diatonic button accordion. The marimbula bass* and alto sax were added later to enhance the existing ensemble.

Of course, this folk music could not be played in society dances where only contra-danzas, danzones, paso dobles and waltzes were played. It was not until the 1940’s that the “perico ripiao”, now evolved into merengue, entered the ballroom. It was obviously influenced by the big bands in the U.S. A large horn section was added, the piano replaced the accordion, and the upright bass replaced the marimbula. Yet, the essential ingredients of the guira and tambora remained.

There are basically three forms of Merengue:

1. “Merengue Tradicional” which can be played “a media” half of the accents in the tambora pattern, or “corrido” the complete pattern.
2. “Merengue Pambiche” — a slower, easier to dance Merengue. The term comes from the independence war of the Dominican Republic from Spain. The Merengue bands would play slower merengues for the Palm Beach, Florida soldiers stationed in that country. They would play these “Merengues a lo Palm Beach”; hence the word “pam-biche”.
3. “Merengue a lo maco” — the most recent innovation to the tambora merengue pattern. A more simplified pattern than the Merengue Tradicional and Merengue Pambiche. It is a one measure pattern that does not outline the clave like the others do.

In the early merengues the piano would “comp” sustained chords during the “body” (A & B sections) of the tune and would segue into a syncopated tumbao in the montuno (vamp) section. The sustained chords at the beginning of the piece were gradually replaced by syncopated tumbaos throughout the whole tune. Eventually the syncopated tumbaos then evolved from identical left and right patterns to a more contrapuntal pattern between the hands.

The primary pattern of the bass was and still is roots and fifths played on down beats. The slower Pambiche Merengue bass also uses roots and fifths but are usually syncopated. The popular Merengue has various fills, glissandos, and nuances added by the arranger or the player to embellish and spice-up the groove. Some of these embellishments included melodic lines in unison with the horn section and staccato, root note down-beats to aid in locking tightly with the bass drum (relatively new to the ensemble) and the rhythm section in general.

Note: Although the clave is not played in the merengues, it is nonetheless implied in the grooves.

If you wish to listen to other examples of merengue we recommend recordings of Johnny Ventura, Wilfrido Vargas, Los Hermanos Rosario, Bony Cepeda, Cuco Valoy, Ramon Orlando, Juan Luis Guerra, Mily & Jocelin y Los Vecinos, J. Esteban y La Patrulla 15, Fernando Villalona.

Second system of the bass line for Merengue. The staff shows a bass clef, a key signature of one flat (Bb), and a 3/2 time signature. The melody consists of eighth notes and rests. The bass line consists of triplets of eighth notes. Chords F and C/G are indicated above the staff.

Third system of the bass line for Merengue. The staff shows a bass clef, a key signature of one flat (Bb), and a 3/2 time signature. The melody consists of eighth notes and rests. The bass line consists of triplets of eighth notes. Chords C/G and F are indicated above the staff. The instruction "Play 3 times" is written above the staff.

Fourth system of the bass line for Merengue. The staff shows a bass clef, a key signature of one flat (Bb), and a 3/2 time signature. The melody consists of eighth notes and rests. The bass line consists of triplets of eighth notes. Chords F and C/G are indicated above the staff.

Fifth system of the bass line for Merengue. The staff shows a bass clef, a key signature of one flat (Bb), and a 3/2 time signature. The melody consists of eighth notes and rests. The bass line consists of triplets of eighth notes. Chords C/G and F are indicated above the staff.

First system of music notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is in treble clef. The system is divided into two measures by a repeat sign. The first measure is marked with a chord symbol 'F' above the staff. The second measure is marked with a chord symbol 'C/G' above the staff. The third measure is marked with a chord symbol 'F' above the staff. The notation includes eighth notes, quarter notes, and rests in the top staff, and triplets of eighth notes in the bottom staff.

Second system of music notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is in treble clef. The system is divided into two measures by a repeat sign. The first measure is marked with a chord symbol 'C/G' above the staff. The second measure is marked with a chord symbol 'F' above the staff. The third measure is marked with a chord symbol 'C/G' above the staff. The notation includes eighth notes, quarter notes, and rests in the top staff, and triplets of eighth notes in the bottom staff.

Third system of music notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is in treble clef. The system is divided into two measures by a repeat sign. The first measure is marked with a chord symbol 'F' above the staff. The second measure is marked with a chord symbol 'C/G' above the staff. The third measure is marked with a chord symbol 'F' above the staff. The notation includes eighth notes, quarter notes, and rests in the top staff, and triplets of eighth notes in the bottom staff.

Fourth system of music notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is in treble clef. The system is divided into two measures by a repeat sign. The first measure is marked with a chord symbol 'C/G' above the staff. The second measure is marked with a chord symbol 'F' above the staff. The third measure is marked with a chord symbol 'C/G' above the staff. The notation includes eighth notes, quarter notes, and rests in the top staff, and triplets of eighth notes in the bottom staff.

Fifth system of music notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is in treble clef. The system is divided into two measures by a repeat sign. The first measure is marked with a chord symbol 'F' above the staff. The second measure is marked with a chord symbol 'C/G' above the staff. The third measure is marked with a chord symbol 'F' above the staff. The notation includes eighth notes, quarter notes, and rests in the top staff, and triplets of eighth notes in the bottom staff.

Bass Example 22

The following table summarizes the musical notation for each system, including the guitar staff (top) and the bass staff (bottom) with fingerings.

System	Chords	Guitar Staff (Fingerings)	Bass Staff (Fingerings)
1	Rhythm 8, Gm, D7/A	5, 5, 5, 5, 7, 5, 7, 5	5, 5, 5, 5, 7, 5, 7, 5
2	Gm, D7/A, Gm	5, 5, 5, 5, 7, 5, 7, 5, 5, 8, 7	5, 5, 5, 5, 7, 5, 7, 5, 5, 8, 7
3	D7, Gm	5, 8, 7, 5, 4, 7, 5, 4, 7, 5, 8, 7, 5, 8, 7	5, 8, 7, 5, 4, 7, 5, 4, 7, 5, 8, 7, 5, 8, 7
4	D7, Play 3 times Gm, D7/A	5, 4, 7, 5, 4, 7, 5, 5, 5, 5, 7, 5	5, 4, 7, 5, 4, 7, 5, 5, 5, 5, 7, 5
5	Gm, D7/A, Gm	7, 5, 5, 5, 5, 5, 7, 5, 7, 5, 5, 3	7, 5, 5, 5, 5, 5, 7, 5, 7, 5, 5, 3

C7 TUMBAO

C7 tumbaos is an open-ended vamp mainly used today for improvisational jam sessions, or as they are called in latin music "DESCARGAS".

Any 7th chord can be used, but the most commonly used are C7 and D7 chords.

Originally these vamps were used in the "montuno" section of the Danzon style songs in Cuba. Danzon music, being a descendant of the European Contra-Danse, had very structured arrangements which did not allow musicians very much room for improvisation. A new section was added to the Danzon to allow the lead instrument, being the flute in this ensemble, to improvise. Thus a 7th chord was chosen for its dynamic sound and versatility.

The C7 tumbaos when used in this context are always played in 2:3 clave.

Note: The 7th chord tumbaos were first introduced to mass audiences in the famous 1950's series of DESCARGAS recordings by bassist Israel "Cachao" Lopez. These recordings are still available world wide.

First system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). It contains a melodic line with eighth and sixteenth notes, some beamed together, and a final quarter rest. The bottom staff is a fretboard diagram with two lines (Treble and Bass) and fret numbers: 12, (12) 9, 10, 8, (8) 10, 8, 10, 7, 8, 6, (6) 8.

Second system of musical notation. The top staff continues the melodic line with eighth notes, a triplet of eighth notes, and a final quarter note. The bottom staff shows fret numbers: 6, 8, 7, 10, 8, 10, 9, 10, 9, 10, 8, 10, 9, 10, 8, 10, 9, 10.

Third system of musical notation. The top staff continues the melodic line with eighth notes, a triplet of eighth notes, and a final quarter note. The bottom staff shows fret numbers: 8, 10, 9, 10, 8, 10, 9, 12, 11, 10, 9, 12, 10, (10) 8, 10.

Fourth system of musical notation. The top staff continues the melodic line with eighth notes, a triplet of eighth notes, and a final quarter note. The bottom staff shows fret numbers: 7, 8, 10, 10, 8, 10, 7, (7) 8, 6, 8, 8, (8) 7, 10, 8, 10, 8.

SONGO

Songo — style created and made popular by Los Van Van of Cuba. Juan Formel (bassist) formed the group Los Van Van in 1970. Along with drummer “Blasito”, Formel attempted to merge “Son” with American music. When drummer “Blasito” left the band, Jose’ Luis Quintana “Changuito” (conguero, timbalero, and drummer) joined as the new drummer, he developed and elaborated on the style. The result of this endeavor of Los Van Van was named Songo.

The songo “groove” is made by the combination of patterns in the rhythm section. Note that the overall feel of the rhythm section is different. The examples included here are a basic idea of a groove that is much freer and “ad-lib”. This groove incorporates a trap set along with bata drums, chekeres, and/or the standard congas, bongos and timbales. The drummer that introduced this groove in the U.S. is Ignacio Berroa (drummer for many years with Dizzy Gillespie). He recorded this groove for the first time in the U.S. with Batacumbale of Puerto Rico. (For a more in depth study of the groove see Ignacio’s video “Mastering The Art Of Afro-Cuban Drumming” available from WARNER BROS. PUBLICATIONS.)

Clave 3:2

Bass Example 26

The musical notation for Bass Example 26 consists of three systems, each with a bass staff and a corresponding fingering staff. The chords are indicated above the notes.

System 1:

- Chords: C, D, G7, F
- Fingering: 3 2 5 3 | 5 4 7 5 | (5) 7 5 | 3 2 5 3

System 2:

- Chords: C, D, G7, F, C
- Fingering: (3) 2 5 | 5 4 7 5 | (5) 5 4 3 | (3) 2 5 | 3 2 5 5

System 3:

- Chords: D, G7, F, C, D
- Fingering: (5) 4 7 5 | (5) 5 4 3 | (3) 2 5 3 | (3) 2 5 5 | (5) 4 7 5

First system of musical notation. The top staff is in bass clef with a key signature of one flat (Bb). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: G7, F, C, D, G7.

The first system consists of a musical staff and a guitar fretboard diagram. The musical staff is in bass clef with a key signature of one flat (Bb). It contains five measures of music. The guitar fretboard diagram shows the following fret numbers for each measure: (5) 5 4 3, (3) 2 3 2 3, 3 2 5 5, (5) 4 7 5, and (5) 7 4 5.

Second system of musical notation. The top staff is in bass clef with a key signature of one flat (Bb). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: F, C, D, G7, F.

The second system consists of a musical staff and a guitar fretboard diagram. The musical staff is in bass clef with a key signature of one flat (Bb). It contains five measures of music. The guitar fretboard diagram shows the following fret numbers for each measure: 3 2 5 3, (3) 2 5 5, (5) 4 7 5, (5) 5 4 3, and (3) 2 5 3.

Third system of musical notation. The top staff is in bass clef with a key signature of one flat (Bb). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: C, D, G7, F, C.

The third system consists of a musical staff and a guitar fretboard diagram. The musical staff is in bass clef with a key signature of one flat (Bb). It contains five measures of music. The guitar fretboard diagram shows the following fret numbers for each measure: (3) 2 5 3, 5 4 7 5, (5) 5 4 3, (3) 2 5 3, and (3) 2 5 3.

Fourth system of musical notation. The top staff is in bass clef with a key signature of one flat (Bb). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: D, G7, F, C, D.

The fourth system consists of a musical staff and a guitar fretboard diagram. The musical staff is in bass clef with a key signature of one flat (Bb). It contains five measures of music. The guitar fretboard diagram shows the following fret numbers for each measure: 5 4 7 5, (5) 5 4 3, (3) 2 5 3, (3) 2 5 5, and (5) 4 7 5.

Fifth system of musical notation. The top staff is in bass clef with a key signature of one flat (Bb). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: G7, F, C, D, G7.

The fifth system consists of a musical staff and a guitar fretboard diagram. The musical staff is in bass clef with a key signature of one flat (Bb). It contains five measures of music. The guitar fretboard diagram shows the following fret numbers for each measure: (5) 7 5 4, 3 2 5 3, (3) 2 5 5, (5) 4 7 5, and (5) 5 4 3.

First system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: F, C, D, G7, F.

Top staff notes (measures 1-5):
1: F2, A2, Bb2
2: F2, A2, Bb2
3: F2, A2, Bb2
4: F2, A2, Bb2
5: F2, A2, Bb2

Guitar fretboard diagram (measures 1-5):
1: (3) 2 5 3
2: (3) 2 5 3
3: 5 4 7 5
4: (5) 5 4 3
5: (3) 2 5 3

Second system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: C, D, G7, F, C.

Top staff notes (measures 1-5):
1: C2, E2, F2
2: C2, E2, F2
3: C2, E2, F2
4: C2, E2, F2
5: C2, E2, F2

Guitar fretboard diagram (measures 1-5):
1: (3) 2 5 5
2: (5) 4 7 5
3: (5) 5 4 3
4: (3) 2 5 3
5: (3) 2 5 3

Third system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: D, G7, F, C, D.

Top staff notes (measures 1-5):
1: D2, F2, G2
2: D2, F2, G2
3: D2, F2, G2
4: D2, F2, G2
5: D2, F2, G2

Guitar fretboard diagram (measures 1-5):
1: 5 4 7 5
2: (5) 7 5
3: 3 2 5 3
4: (3) 2 5 5
5: (5) 4 7 5

Fourth system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: G7, F, C, D, G7.

Top staff notes (measures 1-5):
1: G2, Bb2, D3
2: G2, Bb2, D3
3: G2, Bb2, D3
4: G2, Bb2, D3
5: G2, Bb2, D3

Guitar fretboard diagram (measures 1-5):
1: (5) 5 4 3
2: (3) 2 5 3
3: (3) 2 5
4: 5 4 7 5
5: (5) 5 4 3

Fifth system of musical notation. The top staff is in bass clef with a key signature of one flat (B-flat). The bottom staff is a guitar fretboard diagram. Chords are indicated above the staff: F, C, D, G7, F, C.

Top staff notes (measures 1-6):
1: F2, A2, Bb2
2: F2, A2, Bb2
3: F2, A2, Bb2
4: F2, A2, Bb2
5: F2, A2, Bb2
6: F2, A2, Bb2

Guitar fretboard diagram (measures 1-6):
1: (3) 2 5 3
2: (3) 2 5 5
3: (5) 4 7 5
4: (5) 5 4 3

C B $\flat$ /D F G C

The first system of guitar notation consists of a bass staff and a fretboard diagram. The bass staff contains a melodic line with eighth and quarter notes, including some beamed eighth notes. The fretboard diagram below it shows the corresponding fingerings for the left hand, with numbers 0-3 indicating frets and parentheses indicating fingerings (e.g., (3) for the third finger).

B $\flat$ F G/B C B $\flat$ /D

The second system of guitar notation continues the melodic line from the first system. The fretboard diagram shows fingerings such as (1) 0 1 1 and (1) 0 3 2.

F G/B C B $\flat$ F

The third system of guitar notation continues the melodic line. The fretboard diagram shows fingerings such as (1) 0 3 2 and (2) 3 2 3.

G/B C B $\flat$ F G/B

The fourth system of guitar notation continues the melodic line. The fretboard diagram shows fingerings such as (2) 3 3 2 3 and (3) 2 3 1.

C B $\flat$ F G/B C

The fifth system of guitar notation concludes the melodic line. The fretboard diagram shows fingerings such as (3) 2 0 3 2 1 and (1) 0 0 1.

MUSICA AFRO-CUBANA

Although, the great majority of the grooves in this book are Afro-Cuban, this section includes one of the many grooves that have been played by groups like N.G. La Banda, Adalberto y su son, and Orquesta Reve' among others. Some of the bass and piano examples are more like obligato sections that usually segue into a more standard tumbao. Like the majority of the groups in Cuba, a trap set is also used. And, like the Songo, parts could be and usually are more ad lib. Among many other internationally known Cuban groups are: Irakere, Afro-Cuba, and Rumbavana.

SALSA

Salsa is a name that originated in New York City during the 1970's to describe the sound that had been evolving for a number of decades. It is a mixture of many cultures, but mainly it is Afro-Cuban music, especially the "guaracha" (descendant of the son) with Puerto Rican percussive additions and American Jazz harmonic enhancements.

It would be impossible to name all of the artists and musicians who influenced this music, but it would be helpful for you to obtain some recordings of the following individuals, all of whom made significant impact on this music:

Ray Barreto, Justo Betancort, Wille Colon, Bobby Cruz, Celia Cruz, Larry Harlow, Hector La Voe, Ismael Miranda, Johnny Pacheco, Eddie Palmieri, Charlie Palmieri, Richie Ray, Pete "El Conde" Rodriguez, Ismael Quintana and Bobby Valentin.

The above mentioned artists primarily performed a hard-driving form of Salsa that was very danceable, but at the same time gave the players a lot of room for improvisation.

In recent years a form of Salsa called "Salsa Sensual" has become very popular. This form of Salsa still maintains the same rhythmic and clave patterns, but the arrangements are built around romantic ballads with the chords and harmonies for a more mellow sound.

Lately the contributions of Venezuelan, Colombian and Panamanian musicians have given the music a different flavor. Musicians like Oscar de Leon from Venezuela and El Grupo Niche from Columbia have added idiosyncracies in tumbaos, mambos and overall song structures, and from Panama Ruben Blades' use of different instrumentation as well as structure has elevated the music to newer heights.

Not to mention El Gran Combo and La Sonora Poncena from Puerto Rico whose Jazz influenced Papo Luca has given the music a fresh new twist.

In the following examples you will hear both of these styles extensively.

SALSA

CD

33

Clave 2:3

Bass Example 32

The bass line for Salsa, Example 32, Clave 2:3, is presented in a system of five staves. Each staff consists of a melodic line in bass clef and a corresponding line of fingerings (6, 8, and (6)) below it. The key signature is one flat (Bb). The chords and fingerings are as follows:

- Staff 1:** Chords: Ab, Abm. Fingerings: 6, 6, 6, (6), 6, 6, (6), 6, 6, (6), 8, 6.
- Staff 2:** Chords: Eb, Bbm7, Eb7. Fingerings: (6), 6, 6, (6), 8, 8, 8, 8, 6, (6), 8, 8.
- Staff 3:** Chords: Ab, Abm, Eb. Fingerings: 6, 6, 6, (6), 6, 6, (6), 6, 6, (6), 8, 6, (6), 6, 6.
- Staff 4:** Chords: Bbm7, Eb7, Ab. Fingerings: (6), 6, 6, 8, 8, 6, (6), 8, 8, 6, (6), 6, 6, (6), 6, 6.
- Staff 5:** Chords: Abm, Eb, Bbm7. Fingerings: (6), 8, 8, 6, (6), 8, 6, (6), 6, 6, (6), 8, 8, 8, 8, 6.

First system of music notation. The top staff is in bass clef with a key signature of two flats (Bb, Eb). The bottom staff is in bass clef with a key signature of two flats (Bb, Eb). The system is divided into five measures by a double bar line after the second measure. Chord labels above the staff are Eb7, Ab, Abm, and Abm. The bottom staff contains fingerings: (6) 5 6, (6) 6 6, (6) 6 6, (6) 6 6, and (6) 8 8 6.

Second system of music notation. The top staff is in bass clef with a key signature of two flats (Bb, Eb). The bottom staff is in bass clef with a key signature of two flats (Bb, Eb). The system is divided into five measures by a double bar line after the fourth measure. Chord labels above the staff are Eb, Bbm7, Eb7, and Ab. The bottom staff contains fingerings: (6) 6 6, (6) 8 8, 8 8 6, (6) 5 6, and (6) 6 6.

Third system of music notation. The top staff is in bass clef with a key signature of two flats (Bb, Eb). The bottom staff is in bass clef with a key signature of two flats (Bb, Eb). The system is divided into five measures by a double bar line after the third measure. Chord labels above the staff are Abm and Eb. The bottom staff contains fingerings: (6) 6 6, (6) 6 6, (6) 8 6, (6) 6 6, and (6) 8 8.

Fourth system of music notation. The top staff is in bass clef with a key signature of two flats (Bb, Eb). The bottom staff is in bass clef with a key signature of two flats (Bb, Eb). The system is divided into five measures by a double bar line after the second measure. Chord labels above the staff are Bbm7, Eb7, Ab, and Abm. The bottom staff contains fingerings: 8 8 6, (6) 5 6, (6) 6 6, (6) 6 6, and (6) 6 6.

Fifth system of music notation. The top staff is in bass clef with a key signature of two flats (Bb, Eb). The bottom staff is in bass clef with a key signature of two flats (Bb, Eb). The system is divided into four measures by a double bar line after the third measure. Chord labels above the staff are Eb. The bottom staff contains fingerings: (6) 8 6, (6) 6 6, (6) 8 8, and 6.

Bass Example 36

Bass:

The bass line is written on a single staff. It begins with a treble clef and a key signature of one flat (B-flat). The melody consists of eighth and quarter notes, with some measures containing beamed eighth notes. The piece concludes with a double bar line and repeat dots.

Play 4 times

(8) 8 9 (9) 7 7 (7) 7 7 5 5 8

The bass line is written on a single staff in bass clef. It consists of a sequence of eighth and sixteenth notes, with some notes beamed together. The melody is simple and follows the rhythm of the lyrics.

The musical score for 'The Rose Tree' is presented in two systems. The first system consists of a vocal line in the treble clef and a guitar line in the bass clef. The vocal line begins with a treble clef, a key signature of one flat (B-flat), and a 2/4 time signature. The melody is written in a simple, folk-like style with eighth and quarter notes, some beamed together, and a final measure with a fermata. The guitar line is in the bass clef and uses a standard six-string guitar tuning. It features a series of fret numbers (7, 7, 7, 7, 5, 5, 8, 8, 9, 7, 5) indicating the fret position for each note. The second system continues the vocal line and guitar line, with the vocal line ending on a note with a fermata and the guitar line ending on a note with a fermata. The guitar line includes a double bar line and a final fret number (5).

***T* = Thumb**
***P* = Pluck**

The musical notation for the bass line of "The Sound of Silence" is shown in two staves. The top staff is in bass clef with a key signature of one sharp (F#). It contains three measures of music, each with a chord symbol above it: D6, G, and A7. The notes are: Measure 1 (D4, F#4, A4), Measure 2 (G4, B4, D5), and Measure 3 (A4, C5, E5). The bottom staff is a single line with a treble clef and a key signature of one sharp. It contains three measures of music, each with a chord symbol above it: D6, G, and A7. The notes are: Measure 1 (D4, F#4, A4), Measure 2 (G4, B4, D5), and Measure 3 (A4, C5, E5).

The bass line is written on a single staff in bass clef with a key signature of one sharp (F#). It consists of three measures, each containing a whole note. The notes are: F#2 (labeled 'D6'), G#2 (labeled 'P'), and A2 (labeled 'T'). The first measure is followed by a double bar line and a repeat sign. The second measure is followed by a double bar line and a repeat sign. The third measure is followed by a double bar line and a repeat sign. The notes are: F#2 (labeled 'D6'), G#2 (labeled 'P'), and A2 (labeled 'T').

LATIN JAZZ

Before the word Latin Jazz was used to describe this music it was called "Afro-Cuban Jazz" or as Dizzy Gillespie and other musicians at the time amusingly called it, "CuBop". The first to play this was Mario Bauza, the arranger for Jose "Machito" Grillo's band in the forties in New York.

Mario Bauza had played with such big bands as Chick Webb and Cab Calloway when he first got to the states from Cuba in the 1930's. Here he created "Tanga", the first known composition that used a jazz melody and harmonies with a Cuban clave feel and rhythm section. Later with his brother-in-law Machito's band and later on his own he continued to compose and record numerous albums of Latin Jazz and dance music until his death in 1993.

Another important influence during the 1940's was Dizzy Gillespie's composition of "Manteca" which was composed in conjunction with Chano Pozo, a Cuban percussionist introduced to Dizzy by Mario Bauza. By his love for Afro-Cuban music and openly associating himself with this music Dizzy Gillespie attracted many other great Bebop players of the era to it.

It is impossible for us to list all of the artists in this field, nevertheless we made a condensed list of the following: Mario Bauza, Machito y su Orchesta, Tito Puente, Dizzy Gillespie, Mongo Santamaria, Cal Tjader, Ray Barreto, Grupo Irakere, Poncho Sanchez and Gonzalo Rubalcaba.

MIXING THE STYLES

Styles in Afro-Cuban Music are sometimes mixed adding variety to the music. This creates a sort of tension and release within a given tune. For example, a tune may start as a Bolero for sixteen or thirty-two measures and segue into Salsa. Styles are interchanged with discretion. When done eloquently, the change is accepted naturally by the listener. Many mixes are made as intros, interludes, verse or body of a tune, or as an ending section within a piece. Four, eight or sometimes sixteen measures at a time are incorporated and usually done once or twice within a section to add some spice.

A few common groove mixes include:

1. Salsa with a quasi-Samba section and/or ending
2. Bolero with a quasi-Samba or Bossa Nova ending
3. Salsa with a Bomba section
4. Merengue with a Bolero intro
5. Merengue with the conguero playing Puerto Rican Plena (a mix within the style)
6. Bolero that segues into Salsa
7. Salsa with a Guaguanco intro and/or interlude
8. Salsa with 6/8 bata' drumming intro and/or interlude
9. Merengue with a Rap section
10. Salsa with other unnamed grooves created within the rhythm section i.e., caballo

CONCLUSION

We hope that you have enjoyed this study and have been able to use it in developing your own grooves. As mentioned in the beginning, this book should be used as basis for studying the over-all concept of the styles. It is merely a brief survey of the tip of an "iceberg" that continues to grow and develop with time. If you've studied and practiced these examples thoroughly you should by now be able to tap the clave to the examples and create a tumbao over a set of changes that fit the respective clave. We thank you for listening.

SUGGESTED READINGS

If you wish to study more in depth and grasp some of the rich culture where all these musics evolved from, the following listed books are recommended by the authors.

Aretz, Isabel (Relatora de 15 Libretos): *America Latina En Su Musica* Mexico: Siglo XXI Editores & Paris: Unesco, 1987

Gerard, Charley w/ Sheller, Marty: *Salsa, The Rhythm of Latin Music* Crown Point, IN: White Cliffs Media Company, 1989

Mouleon, Rebecca: *Salsa Guidebook for Piano & Ensemble* Sher Music Co. 1993

Roberts, John Storm: *The Latin Tinge, The Impact of Latin American Music on the United States*, New York: Oxford University Press, 1979

Slonimsky, Nicolas: *Music of Latin American*, New York: Thomas Y. Crowell Company, 1945

JOHN PATITUCCI

Ultimate Play-Along for Bass, Level 1—Volume 1

(MMBK0050CD)

Book and CD\$24.95

This exceptional package allows the beginner to intermediate bassist to practice with a pre-recorded band. The seven tracks cover a wide range of styles such as straight eighths, sixteenth feel, rock shuffle, rock ballad, Latin, straight-ahead jazz, and rock & roll. Includes a "roadmap" chart for each tune.

JOHN PATITUCCI

Electric Bass

(MMBK0006CD)

Book and CD\$26.95

Derived from John Patitucci's Bass Workshop DCI video. Covering technique and an introduction to musical styles, this instruction puts you on the right road to becoming a working bassist.

JOHN PATITUCCI

Electric Bass 2

(MMBK0049CD)

Book and CD\$24.95

Electric Bass 2 focuses on developing improvisational skills through ear-training. John also discusses and demonstrates the specifics of the six-string bass. Also featured are tunes from his albums including "On the Corner," "Our Family," and "Growing."

STEVE BAILEY & VICTOR WOOTE

Bass Extremes

(F3389BGXAT)

Book and Cassette\$21.95

Exploring the tremendous, often unrealized potential of the bass guitar, Steve Bailey and Victor Wooten have put together this incredible recording, complete with transcriptions and lessons for each song. Each piece highlights different aspects of their amazing techniques — such as Steve's three finger technique or his awe-inspiring command of harmonics and chord voicings; or Victor's incredible funk grooves, thumb, and two-handed tapping techniques. All music is written in standard notation and tablature.

STEVE BAILEY BASS GUITAR SERIES

Advanced Rock Bass

(F3107BGX)

Book and Cassette\$16.95

Advanced Rock Bass is written for players ready for a serious challenge. Includes: string

crossing exercises, double stops, odd meters, harmonics, artificial harmonics, arpeggios, and chords in harmonics, thumb position, and solo bass playing. Written in standard notation and tablature.

Five String Bass

(F3109BGX)

Book Only\$10.95

Five String Bass explores the fretboard in relation to the added fifth string, enabling you to fully integrate the expanded range and added possibilities of this instrument into your playing style. Beginning with position studies, the book progresses to intervals, extended scales, chord voicings, and arpeggio studies.

Fretless Bass

(F3106BGX)

Book and Cassette\$16.95

Fretless Bass is meant for the player who wishes to add this instrument to his arsenal. The book focuses on developing accurate intonation, then progresses to special effects such as harmonics, double stops, nuances idiomatic to the fretless bass, and numerous solo bass etudes.

Rock Bass

(F3106BGX)

Book and Cassette\$16.95

An aid to gaining complete technical control and understanding of the bass. Starting with right hand alternation studies, the book progresses to 3-finger technique, intervallic studies, double stops, chords, and time studies. With hazard studies and finger-busters. In standard notation and tab.

Six String Bass

(F3110BGX)

Book Only\$9.95

Six String Bass is written to help you make the transition from either the four or five string bass to the six string. The book begins with an exploration of the low B and high C strings followed by scale studies, random note studies, technique, and chord voicings (triads, seventh chords, and inversions).

LINCOLN GOINES & ROBBY AMEEN

Funkifying the Clave: Afro-Cuban Grooves for Bass and Drums

(MMBK0004CD)

Book and 2 CD's\$29.95

Designed for bass players and drummers, this book lays out a step-by-step approach to combining Afro-Cuban rhythms with rock, funk, and jazz. Includes a 96-minute cassette which features some of New York's hottest players and includes the examples from the book.

LESSONS WITH THE GREATS

Lincoln Goines, Jimmy Haslip, Alphonso Johnson, Rocco Prestia, Gary Willis and Victor Wooten

(MMBK0037CD)

Book and CD\$24.95

Developed by John Xepoleas. Six major artists share their vast knowledge and experience in jazz, rock, funk, fusion and Latin bass. Lincoln Goines, Jimmy Haslip, Alphonso Johnson, Rocco Prestia, Gary Willis and Victor Wooten cover laying down a groove, thumb playing and popping, improvising, expanding your jazz vocabulary and mastering modern harmonic and melodic concepts.

JIMMY HASLIP

The Melodic Bass Library (Scales and Modes for the Bass Guitarist)

(F3167BGX)

Book and Cassette\$24.95

An indispensable spiral bound book and cassette on scales and modes for the bass guitarist. Contains diatonic, modal, pentatonic, whole tone, and diminished scales as well as modes of both the harmonic and melodic minor scales, Eastern, Middle Eastern, and other exotic scales of Jimmy's own invention.

JACO PASTORIUS

Modern Electric Bass

(MMBK0005CD)

Book and CD\$24.95

Jaco Pastorius was, for many years, recognized as the world's number one electric bassist. This book and cassette offers the ultimate look into the creative process that lay behind Jaco's playing. Features transcriptions of Jaco's incredible playing on his DCI video along with analysis by legendary bassist Jerry Jemmott.

This book will help you unlock the secrets of the Afro-Cuban rhythmic feel for bass. Beginning with complete explanations of the Clave (the underlying rhythmic pattern) and Tumbaos (the comping/rhythm patterns played over the Clave) the book then guides you through 48 demonstration and play-along tracks covering all the fundamental Afro-Cuban rhythms. In addition, a matching book for keyboard is available, further illustrating the interdependent relationship of the bass and the keyboard in Latin music.
