Complete Set 04490056
Full Score 04490057

During 1997 we celebrated the 20th anniversary of the release of George Lucas' classic film *Star Wars*. All of us connected with this phenomenal movie have been greatly gratified to see an entire new generation of very young film-goers enjoy the *Star Wars* trilogy and relate so strongly to its story, characters, and music.

Also, I am personally delighted to have this new edition of the score available to orchestras and the public. It includes the "Imperial March" and "Yoda's Theme," both of which have not been available until this present printing

I have always felt privileged to have had the opportunity to compose music for these landmark films, and the ongoing interest in the films and their music has continued to be one of my greatest joys
