FOREWORD

by
Moss Hart

TIME FLIES. It is just twenty-seven years ago that I watched Cole Porter swing through the doors of the Ritz Bar in Paris and survey the room, his eyes searching the tables for the young man who had a letter of introduction to him. Though I had never seen him before, I knew that the man standing in the doorway was unmistakably Cole Porter; he looks, I thought quickly, exactly like one of his songs. The small, lithe figure beautifully turned out, the intensely alive face, the immense dark eyes wonderfully set off by the brilliant red carnation in the lapel of his suit—it could not possibly be anyone else. I waved toward him, and as he caught the gesture he smiled back and made his way to my table.

That dazzling smile was quite the best thing I had seen of Paris to date. I am aware that it is heresy not to be enamored of this jewel of cities at first glance and to remain forever afterward her willingly indentured slave, but I seemed to be impervious to the beauty and charm of Paris on this, my first trip, and I have remained so ever since. Indeed, Paris—the Paris that had escaped me—now seemed suddenly to blossom and come alive for the first time as Cole Porter talked, though I knew well enough that Cole Porter was as American as Peru, Indiana, where he was born. He had the gift, I was to learn later, of making any city singularly his own. Wherever he happens to be—London, New York, Venice, Hollywood—there the essence of the city seems to be caught, the secret of the city captured. Paris was his monarchy at the moment, and just before we parted he made a gesture so regal and at the same time so Parisian that to my Brooklyn-bred eyes it had the effect of making me feel that I was seeing the Paris of my imagination at last.

Along with the letter of introduction from Irving Berlin, I had brought with me a small package as well, which I had been asked as a favor to deliver to Cole Porter, since I would be in Paris the week before Christmas and the transatlantic mails at that time of year were somewhat uncertain. “George Hale asked me to bring this to you,” I said, handing the package over.

“Doesn’t say a word about not opening it until Christmas, does it?” he said, and tore at the wrapping eagerly.

Inside the paper, a small, red leather box with the jeweler’s name—Cartier—stamped on it lay exposed. He opened the box, glanced at the contents and smilingly turned the box

around for me to have a look. Two long, thin slabs of gold with the initials "C. P." engraved on each lay somewhat nakedly on the white satin inside the box.

I stared at them, puzzled for a moment, and then asked, "What are they?"

"Garters," he replied, and lifted them out. I watched, astonished, as he lifted each of his trouser legs, revealing a gold garter on the sock above each leg, removed the old ones from each and put the new ones on; and in further astonishment I heard him call, "Hey, Jimmy!" to the barman and toss the old gold garters across the bar.

Before this moment I had not known such a thing as gold garters existed. Now I had seen an old pair of gold garters blithely tossed across a bar and new ones installed. My face must have mirrored the amazement and wonder I felt, for Cole Porter, turning back to me, looked at me and burst into laughter. "It's the way Christmas always ought to start, isn't it?" he said. I could only nod dumbly in reply. "Will you dine with us one night while you're here?" he asked. "I know Linda would like to meet you. I'll have my secretary call you at the hotel." He glanced at his watch and sighed. "Late. Late again," he said, quite like the White Rabbit in *Alice in Wonderland*, and then held out his hand to me and smiled, the same dazzling smile that seemed to light up the entire Ritz Bar. I shook his hand and watched him swing through the doors once more and out into a Paris that seemed peculiarly his.

I have set down my first meeting with Cole Porter because it seems to me to contain some of the gaiety, the impishness, the audacity and the wonderful insouciance of some of his songs. It is hard now to remember the original impact of Cole Porter on the musical theater of the middle and late nineteen twenties. He burst upon that moribund world with the velocity of a meteor streaking across the sky. His words and his music had an abandon, a stunning freshness, a dash and a lyrical agility that were completely new to our ears. The verve of "Let's Do It," the brisk ardor of "You Do Something to Me," the sultry boldness of "Love for Sale," the mordant glow of "What Is This Thing Called Love?" seemed to blow the winds of a graceful and polished world across the musty musical theater of those days and make the majority of the songs we had been singing sound downright provincial. The great ballads—"Night and Day," "I Get a Kick Out of You," "Easy to Love"—and all the others that were to run riot down the years were to come later, but in the late twenties we were suddenly aware that a new musical voice of immense vigor and freshness was making itself heard—a forcible talent that was racy and slashing and bold, but a talent that had great elegance and a curious kind of purity. One thing was certain even then: no one could write a Cole Porter song but Cole Porter. Each song had a matchless design and a special felicity of its own that stamped it as immediately and uniquely his.

I dined twice with the Porters during my ten-day stay in Paris and fell in love, as everyone did, with Linda Porter. To fall in love with Linda Porter was as much a part of a young man's first trip to Paris as eating snails at Fouquet's or climbing the Eiffel

LINDA PORTER

Tower. They were a wonderful pair, the Cole Porters. They were rich, they were gifted, and they moved about with infinite ease and lightheartedness in two worlds—the world of fashion and glitter and the pantaloon world of the theater. Their house in Paris was exquisite, one of the most beautiful houses I have ever seen, and Linda Porter, a legendary beauty herself, lent something of her own radiance and splendor to their life together so that everything and everyone in their house seemed to shine and sparkle with a little of her own special grace. She was a woman of immense delicacy, with an enchanting turn of mind, as easily beguiled by a chorus girl as by a duchess and equally at home with both. Together, the Porters bloomed in a scintillating world that seemed uncommonly festive, and I thought to myself on my last evening with them, What fun it would be to do a musical with Cole Porter. I dismissed this conceit from my mind quickly enough. I was a mere neophyte—barely out of Brooklyn and my first play—and Cole Porter was already one of the most sought-after of all composers. Yet less than two years later, that is exactly what happened. We did do a musical together. Moreover, we sailed around the world to write that musical, and I learned to my chagrin that the jaunty and debonair world of Cole Porter disappeared completely when he was at work, and that Linda Porter, who accompanied us, was as stern and jealous a guardian of that work as Cole Porter himself.

The enterprise—an enterprise that was ultimately to emerge as the musical called *Jubilee*

—began innocently enough. This time, I was lunching with Cole Porter some eighteen months or so after my Paris trip, in New York—a New York that was, in spite of the depression and the New Deal, almost convulsively singing “You’re the Top,” “I Get a Kick Out of You” and “Blow, Gabriel, Blow” from *Anything Goes*, which had opened at the Alvin Theatre three nights before. The clientele of the restaurant where we were lunching seemed to be composed almost exclusively of people who had been part of that opening-night audience, and they streamed over to our table making congratulatory sounds and cooing admiration in two or three different languages and a variety of accents. It made any kind of conversation between us difficult if not impossible, but somewhere or other in the middle of lunch I tossed out an idea for a musical I had recently had and then brushed it aside with something else that was very much on my mind that day.

“I think I came to a decision this morning,” I said. “I’m going to drop work completely for a while. There are always ideas—there are always plays to be written—but always at the expense of something else. I don’t want to settle for that quick trip to Europe wedged in between work and rehearsals. I want to see the whole damn world and I want to see it now. I’m going to take a year off and racket around the world.”

Cole Porter looked at me soberly for a full moment before he spoke. “Why not do both?” he said. “I like that idea of yours for a musical. Why don’t we do it and go around the world at the same time?”

Again I looked at him with the same mixture of astonishment and wonder that had made him burst into laughter as I watched him put the new gold garters into place.

“Why not?” he persisted. “I could leave next week. Couldn’t you?” He was already up from the table and making his way toward the door. “Let’s stop by Cook’s and find the first round-the-world sailing,” he said, “and then go back to the hotel and tell Linda.” It was all very matter-of-fact and somehow absurdly *fait accompli*.

The day of our luncheon was a Wednesday, and the first boat that sailed around the world happened to be for the following Tuesday. We were on it. Another thing I was to learn about Cole Porter was that when he wanted something, mountains moved and the earth shook. Very few people ever said “no” to him. Abject surrender was the general rule. That dazzling smile could disappear with frightening rapidity and a glacial mask could take its place.

The first ten days of the trip were given over to a detailed discussion of the general architecture of the show—lazy, pleasant, sunny days marred only by the ship’s orchestra, which promptly broke into “You’re the Top” or “I Get a Kick Out of You” each time our party entered the dining room or the ship’s lounge. The first strains of music were always accompanied by loud, wild moans from Monty Woolley and more civilized ones from Howard Sturges, two old friends of the Porters’ who had come along for the trip and who found the constant playing of Cole Porter songs almost as unbearable as did Cole Porter himself. He quite literally hated to hear his music played or sung under any

other conditions but his own precise and exacting ones. It was his fate and ours, however, to be plagued by hotel orchestras hidden behind potted palms manfully blaring out "You're the Top" in Bombay, in Zanzibar, in Rio, and even—by what miracle of communication no one of us could fathom—in Tahiti and Bali. It was, as Monty Woolley phrased it, "the white man's burden," and there was little to do but sigh and bear it.

Within two weeks I had developed enough of a rough outline for Cole to begin to think of songs, and almost immediately a great change took place. Cole Porter "worker" and Cole Porter "playboy" were two different beings. The change in him was as remarkable as it was revealing. The secret of those marvelously gay and seemingly effortless songs was a prodigious and unending industry. He worked around the clock. I had, and have always had, a fixed schedule of work. A writer of plays or prose is usually good for two or three hours of consecrated work a day and no more. He must choose the hours of the day that suit him best and use those hours to the full. Then it is over. Some writers work best at dawn, some choose even the small hours of the night, but my best hours have always been the late-morning ones. As a consequence, I would emerge from my cabin shortly before lunch ready, eager and waiting for the wonderful world of the Porters to begin, but the wonderful world of the Porters had completely disappeared.

From the time I handed him the outline with the first two or three songs indicated, Cole Porter seemed to withdraw not only from our party but from the human race as well. Indeed, I sometimes suspected that he used work as a weapon to shield himself from a boredom whose threshold was extremely low; he could withdraw and disappear before one's eyes with an almost sinister facility. His withdrawals were not confined to the moment when he entered his cabin to sit at the small upright piano; they spilled over the luncheon table, the dinner table, and even onto some of the sightseeing tours when the boat docked.

The boat stopped first at Kingston, Jamaica, and another side of his nature I had not bargained for was immediately and exhaustingly revealed. He was an indefatigable sightseer, a tourist to end all tourists. Everything held an interest for him. No ruin was too small not to be seen, particularly if it meant a long climb up a steep hill; no ride into the interior was too much or too far, if it was a broiling hot day and there was a piddling waterfall at the end of it. Even the flora and fauna fascinated him, and he would drive miles to gape at a native shrub or an animal that flourished only in a particularly disagreeable part of whatever country we were in. Yet even his insatiable tourism, it turned out, was also grist to the mill of work, which went on whether he was sightseeing, eating or, for all I knew, while he was sleeping at night. I made this discovery a few days later when I went to his cabin to hear the first song written for *Jubilee*. It was called, astonishingly enough, "The Kling-Kling Bird on the Divi-Divi Tree," a bird and a tree I had heard him asking innumerable questions about during our stopover in Jamaica. It did not surprise me too greatly, therefore, when, sometime after we had sailed away from

Samoa, he informed me that one of the chief ballads for the show was to be entitled "Begin the Beguine." The beguine was a native dance we had driven endless hot miles to witness, and my reservations about the length of the song (I am somewhat ashamed to record that I thought the song had ended when he was only halfway through playing it) were overridden by my relief that one of the chief love songs of the show was not to be about a koala bear or a duck-billed platypus, one or the other of which he had found completely entrancing.

As I grew used to his method of working, however—the long, baffling silences, the sudden withdrawals—I became increasingly fascinated and admiring of the profound sense of dedication he brought to his work. I do not know if it is generally known that Cole Porter is a first-rate musician, thoroughly schooled in musical theory and harmony, with a large and cultivated knowledge of classical music at his command. It was, I know, a surprise to me. Those songs which seemed almost to cascade from the piano with infinite ease and grace, those words which were so captivatingly set to music that in combination they sounded almost as if they had written themselves, had been arrived at with immense labor and out of a solid musical background. Without that background, and in spite of his great musical gift, I do not think he could have written "Begin the Beguine," a song that was as far ahead of its time musically in 1935 as "What Is This Thing Called Love?" was ahead of its time in 1929. Likewise, his steeplechase agility with words—words that seem to quicken the music or fill it with languor and very often with passion—spring from a real devotion to the English language. Here again his erudition is surprising, his knowledge encyclopedic and his taste impeccable. The trite, the hackneyed, the commonplace word was never settled for. The search for the right word—the unerring word that would fit the musical note with exactitude and express precisely what he wanted the song to say—was like the quest for the Holy Grail. There was something almost mystical about his constant pursuit for the explicit, tangible word that would highlight the rhyme scheme or illuminate the middle of a song and make it soar to the end. Wit and elegance he had at his fingertips, and he could write clever, smart and even brilliant lyrics by the yard, but he was scrupulous about what each particular song was to say in relationship to the score as a whole, and he polished and worried over so simple a song as "Why Shouldn't I?" until it gleamed like the perfect little song it is.

I learned a lasting lesson from watching Cole Porter at work. It was, simply, that no artist, however gifted, can ever rely solely on his gift without a steady and relentless industry in its application. The ability to use his gift with vigor and constancy is almost as necessary a requisite as talent itself. Cole Porter is a prime example of this depressing truism. Though the most self-indulgent and the most pleasure-loving man I have ever known, indulgence and pleasure both stopped dead the moment songwriting began. Perversely enough, and to point up the exception to every rule, I suppose, he could fashion a song overnight when necessity demanded it. I was given a startling example of this shortly before rehearsals began.

Marcus Blechman

MOSS HART

Both score and book had been completed by the time we returned to New York. The weekend before rehearsals were scheduled to begin, I accompanied him to Leonard Hanna's farm in Ohio for a last respite before the frenzy that lay just ahead. On Saturday afternoon as we walked through the quiet September countryside, inevitably discussing the only topic that held any interest for either of us, I brought out into the open a nagging thought I had long held—that the score still lacked a major song in the second act. He was surprised, but quickly agreed with me. Thereafter silence fell and the withdrawal began. I might just as well have been strolling through the woods by myself. Early on, I might have mistaken this for annoyance, but I knew by now that he was already at work. Mentally I made a note that, with luck, we might have the song for the third week of rehearsal. It is unwise to count on predictability in people, more particularly in anyone as unpredictable as Cole Porter. The next morning he called me into the living room and closed the doors. He placed a scribbled sheet of note paper on the music rack of the piano and then played and sang the verse and chorus of "Just One of Those Things." No word of either verse or chorus was ever altered. It has been played and sung through the years exactly as I heard it on that Sunday morning in Ohio, a song written overnight, thereby defying all the nice little rules I had conceived about work. The fact remains, however, that with this one exception a Cole Porter song is usually the end product of

hours and days of work such as no self-respecting longshoreman would ever accept without complaining to his union.

Jubilee was a pleasant enough success, and it is interesting to note that two of its songs that I have mentioned—"Begin the Beguine" and "Just One of Those Things"—were dismal failures both in the show and with the public as well. The critics were dismissive and the public uninterested in them. Not until three or four years later did either song begin to assume the characteristics of a popular "hit" or begin to achieve the acclaim that has made them two of the standard songs of the American musical theater.

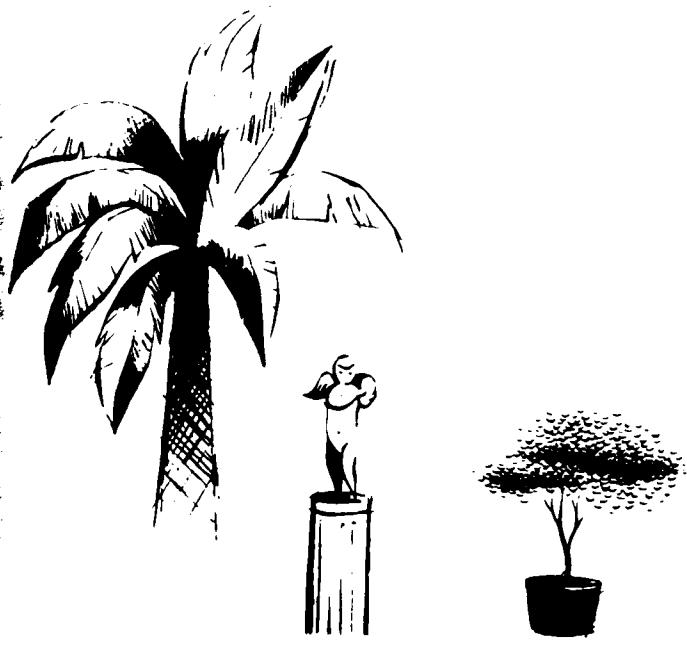

Jubilee was also the end of our collaboration. We have never done another musical show together. I do not know quite why. Through the years we have talked of doing another one, but somehow it has never come to pass. Shows either happen or they don't happen. That is as reasonable an explanation as I can give. Meanwhile, that unending and, to me, unrivaled flow of words and music has continued to pour forth. These recollections are being written during a holiday in Jamaica, and quite accidentally two days ago some vivid memories of our collaboration and of Cole Porter were sent spinning across my mind. A river picnic was arranged for one of the final nights of our stay. Food and a little Jamaican orchestra were dispatched on ahead, and the picnickers followed in large canoes. A huge bonfire was lit, and, after the party, we fell into song in the way common to all picnic parties. We sang Berlin, Gershwin, Kern, Rodgers and Hammerstein and Cole Porter.

In that lush jungle setting, "Begin the Beguine" seemed particularly appropriate, and I suddenly recalled the time I had first heard it sung by Cole Porter himself, sitting at the upright piano in his cabin as the boat sailed toward the Fiji Islands. I remembered, too, my first glimpse of him in the Ritz Bar, and, long afterward, my vivid memory of him when he was valiantly fighting the effects of a tragic riding accident. I do not think any memoir of Cole Porter can be written without mention of his defiance and his fortitude in triumphing over a catastrophe that would have broken and overwhelmed a lesser man. It is marvelous to think that so many of these songs—including the great score of *Kiss Me, Kate*—these blithe and sunny songs that America has danced and sung for the past two decades, have come from a man whose daily battle against pain and defeat was in itself a lesson in courage and gallantry. It is a testament to the greatness of the human spirit.

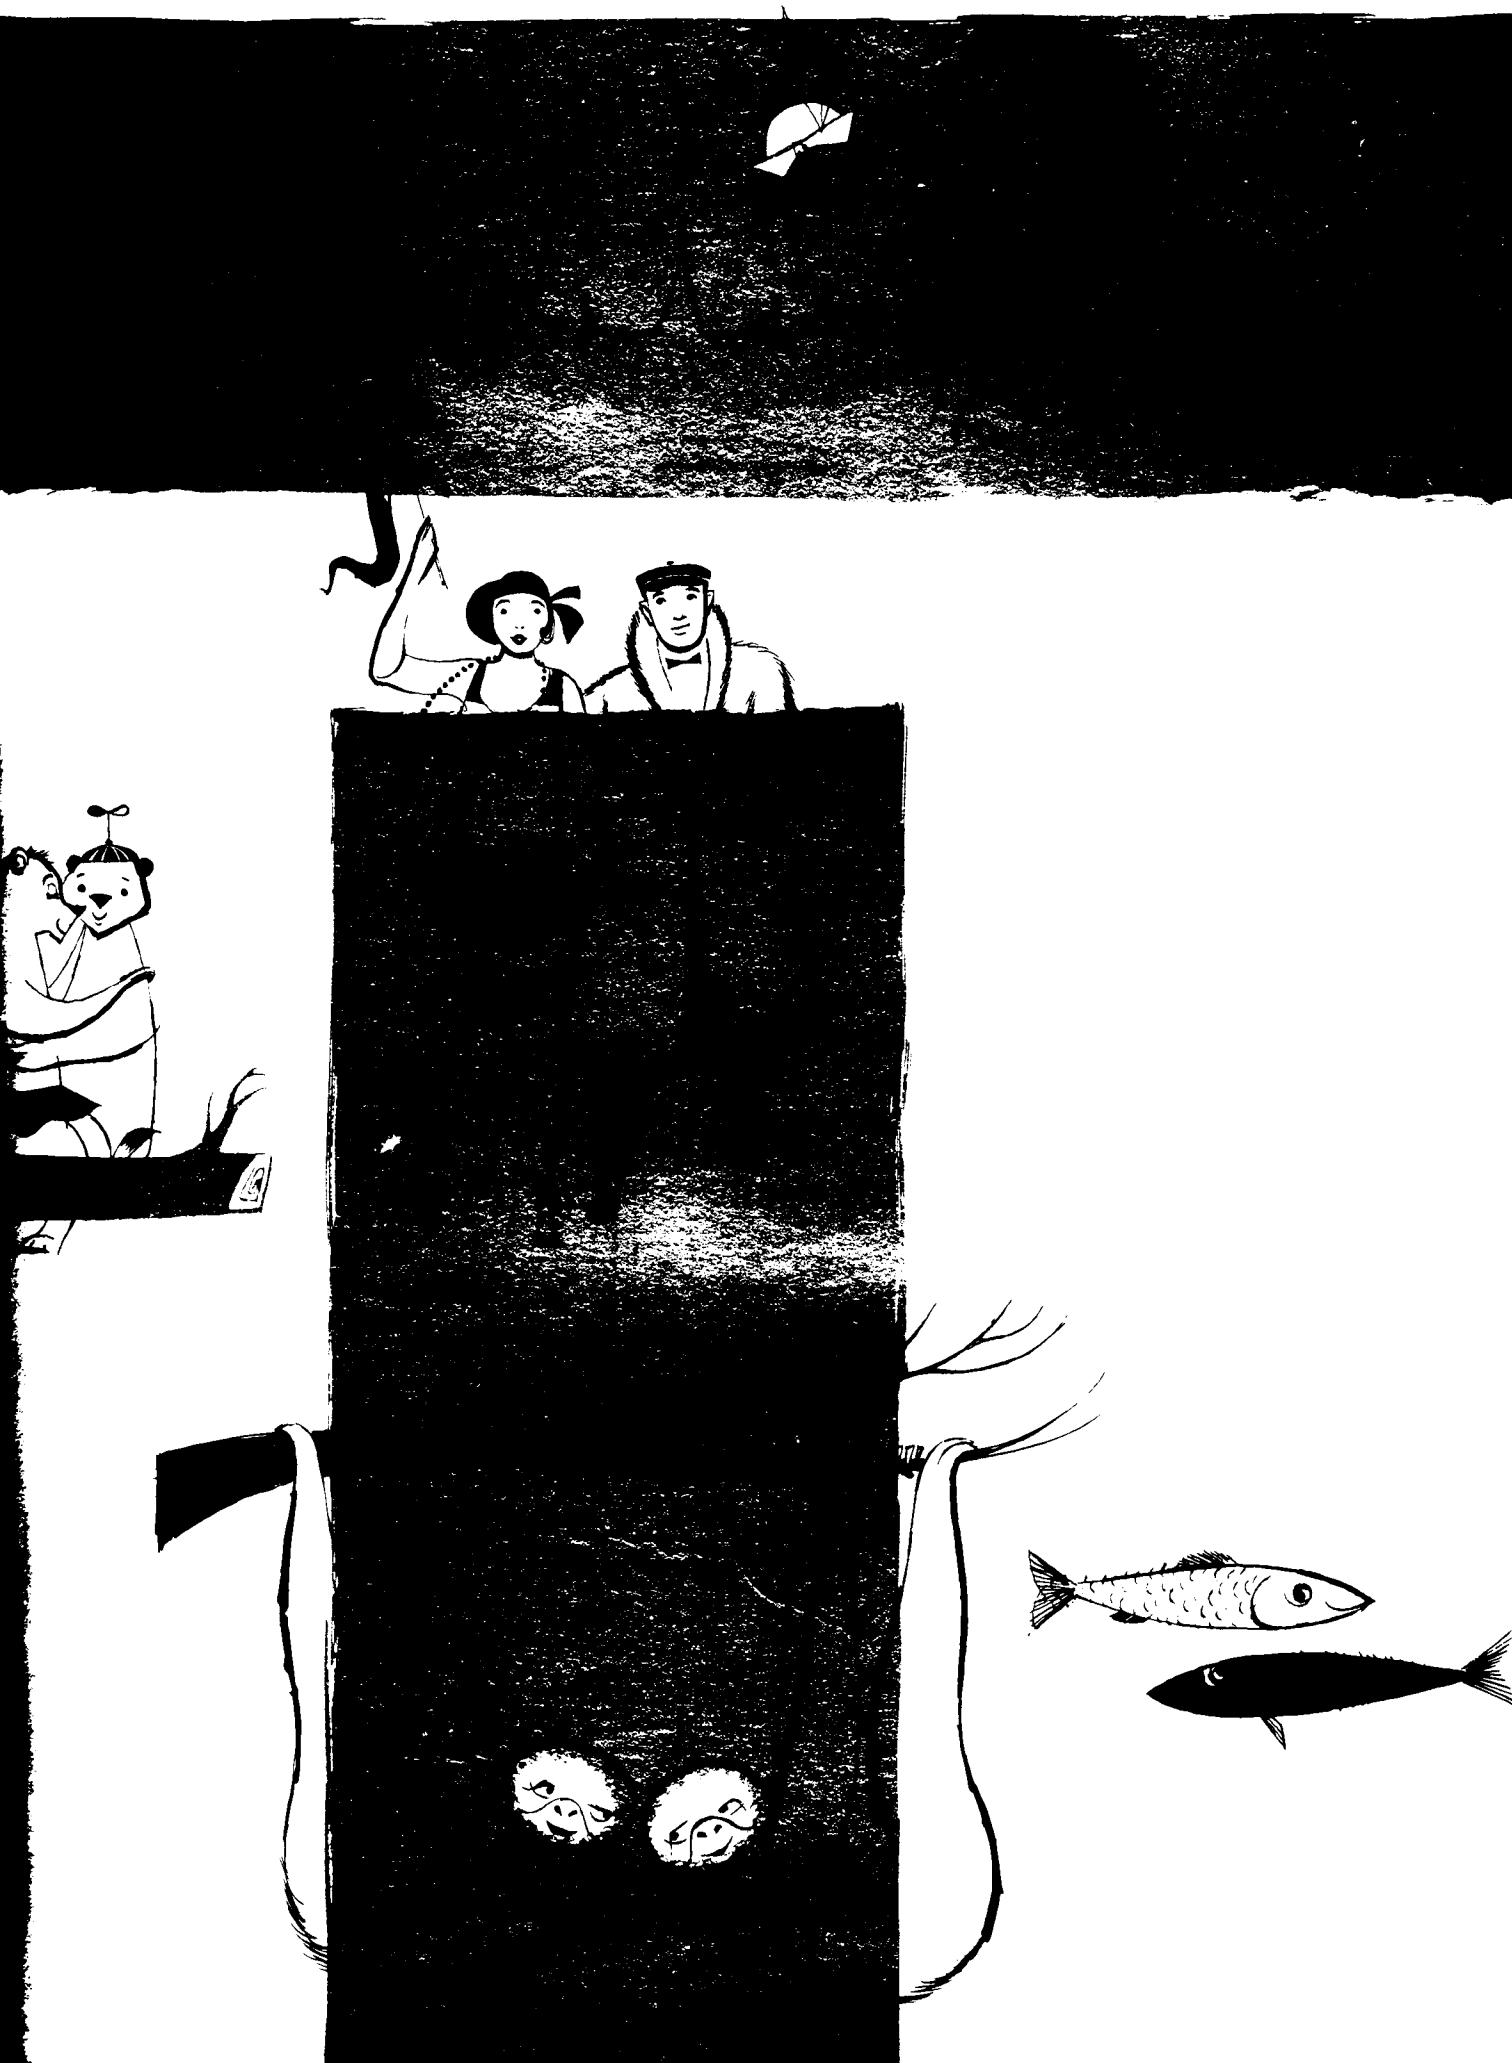

In a bleak and sometimes ugly world, to witness an act of personal heroism is to know forever what human beings can be and can do, for it does not always follow that a first-rate artist is an estimable fellow, nor does it matter, I suppose. Too often, however, the artist apart from his talent is a disappointment; he is not very much of a person and it is almost always disillusioning for the hero worshiper to come face to face with his hero. Cole Porter is one of the rare exceptions. He was an early hero of mine and he has remained a late one. He is quite as matchless as his music.

Allegretto

A musical score for piano, featuring two staves. The top staff is in treble clef and the bottom staff is in bass clef. The key signature is one flat, and the time signature is common time. Measure 1 starts with a forte dynamic (f) and consists of eighth-note pairs. Measure 2 begins with a dynamic of *mp*. Measures 3 and 4 continue the melodic line with eighth-note patterns. The score includes several fermatas over notes in measures 1, 2, and 4.

Were Thine That Special Face

FROM KISS ME, KATE

Andantino con moto

Musical score for piano, page 10, measures 11-12. The score consists of two staves. The top staff is in treble clef and 4/4 time, with dynamic markings *mf* and *poco rit.*. The bottom staff is in bass clef and 4/4 time. The music features various note heads, stems, and beams, with some notes having horizontal dashes or dots. Measure 11 ends with a double bar line. Measure 12 begins with a bass note followed by a series of eighth and sixteenth notes. The score is annotated with measure numbers 11 and 12.

C Dm7 G7 Am G
(quasi recitativo and tenderly)

I wrote a poem in classic style.

p dolce

Emin Dm C Bm7 G

I wrote it with my tongue in my cheek And my lips in a smile.

A musical score page showing two measures of music. The top staff uses a treble clef and consists of two measures separated by a vertical bar line. The first measure begins with a quarter note followed by a eighth note, both with black stems pointing left. The second measure begins with a quarter note followed by a eighth note, both with black stems pointing right. The bottom staff uses a bass clef and consists of two measures separated by a vertical bar line. The first measure begins with a half note followed by a quarter note, both with black stems pointing left. The second measure begins with a half note followed by a quarter note, both with black stems pointing right. Measures 11 and 12 are indicated by Roman numerals I and II respectively.
